

# OELAS Annual Conference Building Innovation in Education

Arizona Department of Education Superintendent John Huppenthal Mark Masterson, CIO Pamela Smith, AELAS Program Director December 7, 2011

## **ADE IT Modernization Effort** AELAS: Education MIS Roadmap

Year 1

Year 2

Year 3

AELAS 2014

- "Map the Mess"
- Define Services
- **Develop Requirements**
- **Business Case**
- Prepare RFP
- Statewide Student/Teacher Identifier recommendation
- Establish Data Governance Commission

- Prepare Service RFP
- Select Vendors to Build Platform
- Support Services
- **Pilot Test District** Selected

### Year 3

- Design
- Implementation
- Begin State
- Implementation **Training Centers**
- Year 4
- Continue Rollout

**Proposed Education Management Information System** 

An interoperable system connects all information and technologies

The tool creates reports that everyone at the appropriate level can access

These reports help inform instruction and reallocate resources effectively

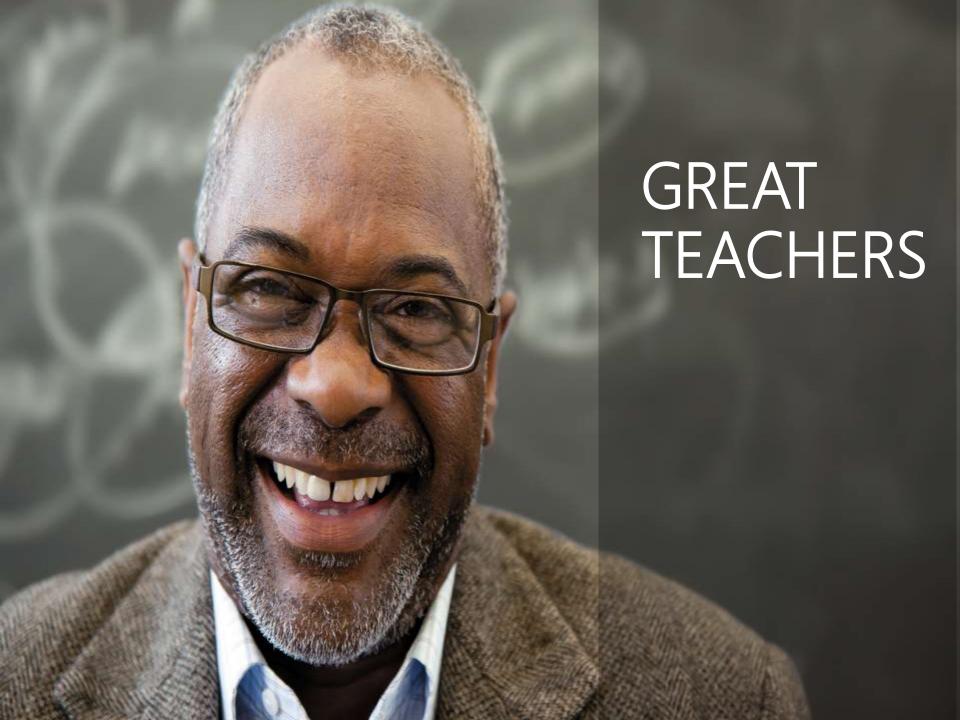

If education is the foundation of society, then technology is quickly becoming the mortar which binds and strengthens that foundation.

# ADE IT Modernization Effort Maturity Levels Defined

Identity, content, data and process

Community-wide access

Everyone tracking to same the goals

Next Generation Learning

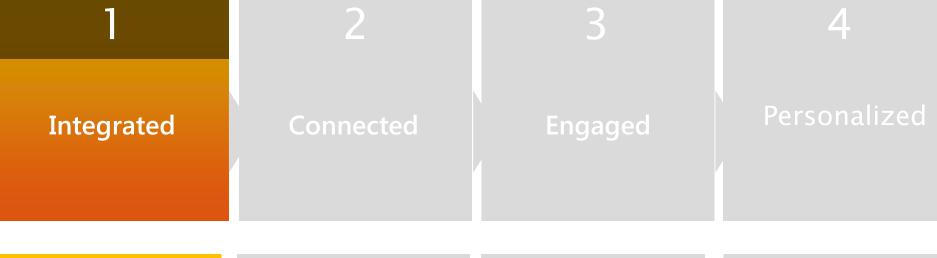

Many Arizona districts have higher Maturity Levels. From a State of Arizona view, we are driving to personalize opportunities for all students and districts.

Without the RIGHT technology solutions with Stateowned data, the journey is improbable!

## ADE IT Modernization Effort Where is Arizona Right Now?

We are designing the frame work to ensure success tomorrow!

Identity, content, data and process

Community-wide access

Everyone tracking to same the goals

Next Generation Learning

Arizona, through the ADE with sponsorship from the Governor, House, Senate and Superintendent, has undertaken a major modernization effort.....

### ADE IT Statewide Data Management

AZ-SLDS and what that means to you

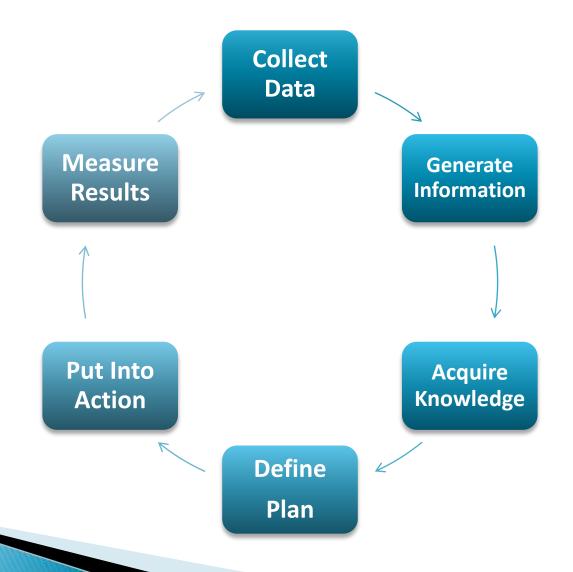

Goal of Statewide Data Management System

### Goal of Statewide Data Management System

## ADE IT Statewide Data Management

What this means to you

# Building Innovation in Education Teachers

- ELL students can be very mobile
  - Centralized access to student records and curricula
  - Test scores compared to others in school/district (longitudinal data)
  - Teaching tools and progress reports from other schools/districts
  - Students "pick up where they left off" so there is no catch up or redundant instruction

End Result: Teachers will be able to execute consistent learning plans, allowing a student to seamlessly transfer into a new school.

# Building Innovation in Education Administrators

- Office managers, principals and specialists have access to a student's COMPLETE record
- Saves time, money and resources
  - No more chasing down student data from other LEAs
  - Reduces redundant processes
  - Economies of scale

End Result: School administrators will have all the necessary information to enroll a student quickly and efficiently into a new school.

# Building Innovation in Education Where do we go from here?

How do we design a system that will work for you?

What information do you need to be a more successful teacher?
